

## **AirSim Bronchi**

Product Code: AA51100

Weight: 3.5kg

Dimensions: 46 x 26 x 33cm

***An innovative and durable solution for realistic airway  
management training***

**“We are loyal to the AirSim manikins because they are the most realistic models on the  
market”**

*-Patrick Ross, Los Angeles Children’s Hospital*

**“Having seen over 300 providers so far, there is no difference from the product new and  
the way it is a year later”**

*-Christopher Graham, Albuquerque Ambulance*

**“I wanted to restate that in my 42 years of practicing Respiratory Therapy- I have never  
seen a more complete line of airway manikins”**

*-John T. Murphy, Franciscan St Francis Health*

### ***Ideal for training in...***

- Oral and nasal intubation
- Laryngeal Mask Airway (LMA) and supraglottic device insertion
- Combitube insertion
- Double lumen endotracheal tube insertion
- Diagnostic bronchoscopy
- Lung isolation techniques using left and right endobronchial tubes and bronchial blockers
- Lung suctioning techniques

### ***Features and benefits...***

- AirSim airway is certified to practice 20,000+ intubation cycles without fail
- Anatomically correct nasal cavity, which allows for important landmarks such as the turbinates to be clearly defined
- Features bronchi which provides internal anatomically correct features down to the fourth generation
- Inflatable tongue bulb to create tongue edema providing a variance during training
- Novel neck construction which can be secured into various positions
- User feedback through the visualization of stomach inflation and lung expansion
- Two difficult airway options are available (if required)
- Delivered ready to use in a durable carry case for easy transportation and safe storage

***Package Contents...***

- 1 AirSim Bronchi (assembled and ready to use)
- 1 TruCorp carry case
- 1 USB pen drive containing product user manual
- 1 bottle of TruCorp lubrication (100ml)
