

AirSim Pierre Robin X

Product Code: PR10000X

Weight: 2kg

Dimensions: 32 x 19 x 19cm

***Developed in collaboration with clinicians from
Children's Hospital Los Angeles to highlight difficult
airway management techniques on infants with Pierre
Robin Syndrome***

“The Pierre Robin manikin has been incredibly helpful in training our neonatology fellows how to manage a difficult airway...I have yet to find a better difficult training manikin for neonatology”

-Heather French, Children's Hospital of Philadelphia

“The incredible realism and anatomically correct details provide our pediatric anesthesiology and critical care learners an experience similar to a real clinical scenario”

-Patrick Ross, Los Angeles Children's Hospital

“Having seen over 300 providers so far, there is no difference from the product new and the way it is a year later”

-Christopher Graham, Albuquerque Ambulance

Ideal for training in...

- Oral and nasal intubation
- Bag/mask ventilation
- Laryngeal Mask Airway (LMA) and supraglottic device insertion
