

AirSim

Product Code: AA11100

Weight: 3.3kg

Dimensions: 46 x 26 x 33cm

An innovative and durable solution for realistic airway management training

“We are loyal to the AirSim manikins because they are the most realistic models on the market”

-Patrick Ross, Los Angeles Children’s Hospital

“Having seen over 300 providers so far, there is no difference from the product new and the way it is a year later”

-Christopher Graham, Albuquerque Ambulance

“I wanted to restate that in my 42 years of practicing Respiratory Therapy- I have never seen a more complete line of airway manikins”

-John T. Murphy, Franciscan St Francis Health

Ideal for training in...

- Oral and nasal intubation
- Laryngeal Mask Airway (LMA) and supraglottic device insertion
- Combitube insertion

Features and benefits...

- AirSim airway is certified to practice 20,000+ intubation cycles without fail
- Anatomically correct nasal cavity which allows for important landmarks such as the turbinates to be clearly defined
- Novel neck construction allowing the manikin to be secured into various positions
- Inflatable tongue bulb to create tongue edema providing a variance during training
- User feedback through the visualization of stomach inflation and lung expansion
- Two difficult airway options are available (if required)
- Delivered ready to use in a durable carry case for easy transportation and safe storage

Package Contents...

- 1 AirSim (assembled and ready to use)
- 1 TruCorp carry case
- 1 USB pen drive containing product user manual
- 1 bottle of TruCorp lubrication (100ml)
